

200 STUDENTS APPLY TO Y. M. C. A. FOR WORK Columbians Who Want Employers Are Asked to Notify Secretary —Jobs Scarce.

More than 200 letters asking for work have been received by the Y. M. C. A. employment bureau from students who will attend the University this fall. Few of these students have been supplied with work.

All Columbians who have work that these men can do are asked by W. C. Stephenson, of the executive committee of the Y. M. C. A. here, to communicate with Henry C. Pepper at the Y. M. C. A. Building, who is in charge of the employment bureau.

The repairs on the Y. M. C. A. are progressing rapidly. It is expected that the roofing work will be completed within three weeks, according to R. W. Wright, who has the roofing contract. Then the work of installing copper gutters in place of the present rusted gutters will begin.

All the bathrooms are being re-modelled. New fixtures are installed in most of the bathrooms already. All shower baths will be coppered throughout. The plumbing work will be completed by next Wednesday, Mr. Stephenson said today.

Every sleeping room in the building will receive a coat of paint in the shades in which they are now painted. All electric light cords in the sleeping rooms will be replaced by new triple insulated cords. The fixtures downstairs will be cleaned and polished, the appropriation not being sufficient to replace them at present, Mr. Stephenson stated.

MANY ALUMNI AT STATE FAIR Faculty and Former Students Help in Official Capacity.

The College of Agriculture was well represented at the Missouri State Fair. The following is a list of members of the faculty, students and alumni who were officials there:

AVIATORS FISH FROM AIR Skill Used in Patrolling Forest and Survey Work.

Winnipeg, Man. (By Mail to United Press).—Canada solved the problem of soldier relief by settling as many as wished on the land, but that did not solve the problem of what to do for the hundreds of after-the-war aviators. The fliers were not disposed to turn from looping the loop in the air to plowing furrows on the ground.

So the government encouraged Canadian flying as a measure of helping former aviators. Airmen are maintaining a fire patrol over great forest regions that prevents millions of dollars annual loss.

Scores of airmen are being used in survey work. Others have entered a new field—the fishing industry. The aviators locate schools of fish and signal their positions. They promise to revolutionize seal hunting.

Airplane mail services have been established in some districts. In the oil rush, airplanes have brought the sub-Arctic close to civilization.

High aircraft efficiency, under the supervision of the Canada Air Board, is indicated by the fact that in the last year there was but one injury in a total of 33,612 miles of flying. Government machines made 398 flights, and civil aviation 13,671.

R. Roberts Loses Purse at Fair.

R. Roberts, 510 North Fifth street, was relieved of his pocketbook, containing \$11, a return ticket to Columbia and some receipts and other valuable papers, Thursday night at the State Fair in Sedalia. Roberts was in a crowded street car when the theft occurred, and did not discover his loss until after he had left the car.

ISSUE FREE ROAD MAPS Tourists May Obtain Information at Commercial Club Offices.

Road maps of Eastern Missouri, Western Kansas and Greater Kansas City have been received by the Commercial Club from the Kansas City Chamber of Commerce and are now being distributed free. The maps show the route of the Old Trails road from Columbia as far west as Council Grove, Kan.

Twenty-four trail highways across Missouri and Kansas are listed on the map. In the map of Greater Kansas City, all the principal streets used by tourists are shown, as well as the locations of the public buildings of both Kansas City, Mo., and Kansas City, Kan.

Cleo J. Flowers, secretary of the Commercial Club, has also been advised that tourists may obtain additional maps and free road information at the offices of the Good Roads Association of Greater Kansas City, which are located in the Gloyd Building.

Rooms For Students

There is a considerable number of students who have not been provided with rooms. There is a greater need for rooms for women than men, but both are required. There is also need for a number of apartments.

Persons having rooms or apartments to rent should call 667 Green—or 257 after 6 p. m. The headquarters of the Committee is in Room 214, Academic Hall.

Please list your rooms with the Rooming House Committee. Do this even if they have been rented.

We must take care of the students and to do this we must have your help. Your complete co-operation is earnestly requested.

DON'T STUB YOUR TOE!

Placed a large boulder in the middle of the road. Thousands of his people, thereafter, severely stubbed their toes or troubled to walk around. At length, one lusty youth—wiser than the rest—seized the stone and heaved it from his path. And where it had rested, he found a bag of gold.

Are you stubbing your toe? Are you overlooking any bags of gold? How about the advertising in this paper? Do you read it—consistently? It is a bag of gold to many of our readers.

In our columns you will find the advertisements of alert progressive merchants and manufacturers who seek to tell you something they think you ought to know. This advertising is news about the very things that interest you most—articles that will save you money, lessen your work, or add materially to your comfort and well being.

Thrifty men and women read advertising. To them it is a plain, every day business proposition—a duty they owe themselves and their purses. It tells them where they can buy exactly what they want at a price they can afford to pay.

Advertising pays them. They make it pay.

It will pay you, too. Read it.
